

TEMPORARY TRAFFIC MANAGEMENT UNIVERSAL STMS

Who should attend:

A Traffic Management Operative who would like to upskill and become an STMS Cat A, B or C.

Goal of the course:

Explain the requirements for the worksite under temporary traffic management.

This provides base STMS knowledge for the STMS category A, B, or C learning. The STMS Universal workshop is normally run in conjunction with a category A, B, or C. (US31961).

At the end of this session the TTM Universal STMS will have completed:

- Roles and responsibilities of an STMS
- The STMS process
- Leading your team
- Risk assessment
- About TMPS
- Pre Start Check List
- Traffic Queues
- Implementing a TMP
- Worksite briefing
- Worksite checks & On site records
- Critical Milestones
- TSLs

This warrant enables the holder, once briefed by the STMS in charge, to:

On category A roads

- Undertake a roadside activity where the vehicle is legally parked and accessed from the non-traffic side

On category A and B roads

- Set up, maintain and remove TTM for roadside or shoulder activities where all TTM

equipment (including TTM vehicles) is outside the edgeline (or edge of seal if there is no edgeline)

- Maintain TTM at an existing static worksite when the in charge STMS is away from the worksite. The STMS must return to the worksite to carry out any required changes
- Complete inspection activities

Note: the TMO P warrant enables the holder to be in charge of and undertake inspection activities. They will not have to report to an STMS for the inspection activity.

Prerequisites:

The student must hold US31959, and demonstrate knowledge of stakeholders and operational requirements for temporary traffic management, and have sufficient on-road experience to progress to the next level of competency.

Duration:

2 Days theory

Qualification:

Waka Kotahi New Zealand Transport Agency do issue a NP warrant for this position which does NOT expire
US31961 will be credited to the individuals NZQA record of learning
